

ECOSYSTEM UPDATE

Published July 31, 2025

CipheX Token Claiming Dashboard

The CipheX Token Claiming Dashboard is scheduled to open sometime today, July 31, 2025. Token holders can connect their wallets to claim CPX Tokens earned from completed lockups and ongoing monthly vesting allocations, which become available at the end of each month until the 12-month vesting period ends.

CipheX Token Visibility in your Wallet

CipheX Tokens (CPX) are not currently listed on any decentralized exchange (DEX), and no active market exists at this time. As a result, unrestricted earned tokens from lockup or monthly vesting allocations may not immediately appear in your wallet after claiming. To view your tokens in your wallet, you must manually add the CipheX token contract address using one of the two methods outlined in the **Claim Tokens FAQ** when claiming opens. Viewing CPX Tokens in your wallet is optional after claiming them through the Claim Dashboard. It does not impact your ownership or vesting of your tokens. Once CPX Tokens begin trading on its planned Uniswap DEX, the tokens should automatically appear in your wallet without any manual action. Before initiating the claim process, please ensure your wallet contains sufficient ETH to cover Ethereum gas (Gwei) transaction fees. These costs vary based on network activity and can be checked in real time at [Ethereum Gas Tracker](#).

Alpha Centurion Network (Alpha CPX)

The development of the Alpha CPX network continues to proceed and in current stages of assembly and testing on its first module, the Alpha Index, which displays real-time trading activities of its proprietary Centurion AI agents to be used by consumers to assist, structure, and manage their self-directed investment portfolio of digital assets on the network when the Alpha CPX becomes commercially available. CipheX is targeting the opening of the Alpha Index for general viewing sometime in September, ahead of its planned DEX listing on Uniswap. Remaining development of Alpha CPX will be funded by proceeds from the limited presale in addition to funding provided by internal CipheX members since inception. CipheX views this development cycle as well-aligned with accelerating adoption by traditional financial markets in digital assets, particularly following recent regulatory shifts that have favored broader cryptocurrency adoption. The company maintains that traditional financial engagement with crypto remains in its early stages. For recent updates on this trend, refer to industry coverage such as [CNBC Crypto World](#). Additional information on the Alpha CPX and other related publications can be found in the whitepapers and internal updates section of the CipheX website.

About The CipheX Ecosystem

CipheX is a decentralized ecosystem providing access to the Alpha CPX Network (Alpha CPX), a fully autonomous AI portfolio management platform delivering institutional-grade performance to everyday consumers. Designed to operate without intermediaries, Alpha CPX gives users full control of their digital assets while enabling advanced market execution, strategy automation, and portfolio performance optimization.

Important Notice to Reader

Certain statements in this communication may constitute “forward-looking statements” within the meaning of the U.S. Private Securities Litigation Reform Act of 1995 and applicable international securities laws. These statements involve risks, uncertainties, and assumptions, and do not guarantee future performance. They may include terms such as “expects,” “plans,” “projects,” “intends,” “believes,” “anticipates,” “targets,” or similar language, as well as discussions of future operations, developments, regulatory outcomes, or financial results. All forward-looking statements reflect the current views of CipheX as of the date of publication, based on available information at that time. Actual results may differ materially due to various risks, uncertainties, and assumptions, including factors not currently known. CipheX undertakes no obligation to update or revise any forward-looking statement except as required by law. Readers should not place undue reliance on such statements.

This communication does not constitute an offer to sell or a solicitation to buy any securities, tokens, or financial instruments. CipheX is not a registered broker-dealer, investment adviser, or custodian, and does not provide investment, legal, tax, or accounting advice. All content herein is provided for informational purposes only and should not be relied upon for financial decision-making. Recipients should consult independent financial, legal, and tax advisors before engaging in any investment or digital asset activity. Use of the CipheX Token Claiming Dashboard, Alpha CPX Network, or any other CipheX platform does not establish a client, brokerage, or fiduciary relationship. Participation in CipheX services is entirely self-directed and does not constitute investment management or financial advisory services under applicable law.

CPX Tokens have not been registered with, reviewed by, or approved by any financial or securities regulatory authority, nor are they registered under any securities laws. No regulatory body has assessed the merits or accuracy of CPX Tokens or any related materials, including CipheX communications or website content. CPX Tokens may not offer protections commonly associated with securities, such as investor disclosures or dispute resolution mechanisms. Digital asset markets are inherently speculative and involve substantial risk. Participants may face extreme volatility, regulatory changes, technological disruptions, cyber threats, fraud, and the potential loss of all invested capital. There is no assurance of price stability, liquidity, or long-term viability of CPX Tokens or related technologies. Statements regarding CipheX or CPX Tokens not made directly by CipheX or its authorized representatives are unauthorized and disclaimed.

Access to CipheX services may be restricted or prohibited in certain jurisdictions. Participants are solely responsible for understanding and complying with applicable laws and regulations. **Past performance is not indicative of future results.**
